MEMORANDUM FOR: See Distribution

SUBJECT : Status of Funds Report - 30 September 1963

1. Forwarded is the OSA-DD/S&T Status of Funds Report for the period ending 30 September 1963.

2. The Summary Schedule for the NRO Program reflects the fund distribution by Project for the first half-year of FY 1964. The supporting schedules reflect the Budget Allocations by line item within each Project. As the requests for these amounts were based on estimated requirements, the allocation by line item is a tentative one, realizing that certain adjustments between line items within a Project may be necessary. Should it be necessary to adjust balances between line items within a Project or utilize the unallocated balances within the Director B Projects, concurrence must first be obtained from the Chief, Budget & Finance Branch and the Chief, Programs Staff, to insure proper recording in official records and to insure that the utilization of funds is compatible with total Director B requirements.

3. Obligation of funds for new or unprogrammed activities associated with the Director B Program and the CIA Support Program must have prior approval from this office.

4. Each addressee should make this information available to personnel under his jurisdiction who may be charged with initiating or incurring obligations.

(Signed) Jack C. Ledford
